The careers programme at Mayfield Grammar school is designed to provide all students with the education, information, advice and guidance to help them make the most informed career decisions. The programme aims to raise aspirations and support students to achieve their full potential whilst they are in school and also in their future career paths.

All students have access to careers Guidance with Miss Johnson, the Careers Leader, who is a Level 6 qualified Careers Advisor with 14 years of experience in the Careers field.

The school also holds the Investors in Careers quality award which is reassessed every year years; this is a kitemark award that demonstrates that the school has a diverse Careers and work related learning programme in place for Years 7-13.

There is a focus on making all students aware of the opportunities that Higher Education has to offer. Strong links with local and Russell Group universities provide up to date information and the chance for students to experience at first hand a range of aspects of university life. All students are guided and supported through the UCAS application process via a series of activities including university visits, individual guidance and mock interviews.

Alongside activities relating to Higher Education are work-related learning activities, providing insight into career progression beyond education. Year 11 students undertake a full week of work experience in a range of professions, both locally and further afield in Kent, Medway and central London. Links with local and larger corporate employers are utilised to raise awareness of the different routes into professions such as accountancy, law, journalism and engineering. Companies offering higher level apprenticeships and sponsored degrees visit the school and seek out our school leavers.
